PROJECTS

Movie Discovery App

- Constructed a web app that displays movies using TMDB API, JavaScript, React, Bootstrap, Firebase, hooks, pagination, routing, and toastify

- Developed filter functionality and utilized Context API for state management

Contact List App

- Assembled a contact list application using HTML, CSS, JavaScript, React, Context API, and Bootstrap.

- Implemented a responsive design, Firebase for user authentication, utilized Formik and Yup for form validation, and added notifications with react-toastify

Company Inventory Management App

- Built a CRUD application to manage company inventory using provided Django API, React, and Redux

- Determined inventory management functionality such as adding, editing, and deleting items

EXPERIENCE

NioyaTech: Junior Front-end Developer (04/2023 - Current)

- Collaborate with development teams and product managers to design and implement client-side and server-side architecture for web applications, utilizing front-end technologies such as HTML, CSS, JavaScript, TypeScript, and React, and back-end technologies including Python, SQL, Django, and PostgreSQL.

- Create and manage well-functioning databases and back-end applications, ensuring cross-platform optimization and responsiveness of applications.

- Test and troubleshooted software to ensure efficiency and responsiveness.

- Work alongside graphic designers on core features, contributing to the development of visually appealing and user-friendly web applications,

SKILLS

Languages: HTML | CSS | JavaScript | TypeScript | Python | OOP

Front-end Development: React | Redux | Context API | React Router Dom | Hooks | Formik | Yup | Toastify | Pagination | Functional Components | Bootstrap | Material-UI | Sass

Back-end Development: Django | Flask | Firebase

Operating Systems: Linux | Windows | MacOS

Version Control: Git | GitHub

Utilities: npm | Yarn | pip | Axios | Postman | gh-pages | apt | Agile | Jira | Trello

LANGUAGES

Fluent English | Fluent Bengali

Certifications

Clarusway (04/2023):

Front-end: 39201493244754
HTML/CSS: 14644960185802
JavaScript: 80993495613814
React: 03183231175125

while utilizing techniques such as search engine optimization (SEO), lazy loading, and caching to boost apparent application speed.

Uber/Instacart: Driver (06/2016 - Current)

- Demonstrated strong time management and interpersonal skills by balancing passenger comfort with expeditious deliveries (4.95 rating).

- Self-taught vehicle repair and modification techniques from YouTube tutorials and automotive forums to install my own parts, and to upgrade my own electronics such as head units, subwoofers, speakers, dash cameras, and rearview cameras.

EDUCATION

Full-Stack Development Bootcamp at Clarusway (11/2022 - 07/2023)

Gained hands-on experience in full-stack web development, including front-end and back-end technologies

Constructed numerous React applications, using various tools and libraries.

Gained deeper knowledge of Python, JavaScript, HTML, CSS, React, Django, SQL, PostgreSQL, Linux, and how to teach myself new technologies.

Bachelor of Arts in Psychology University of Massachusetts Amherst: Expected graduation: May 2025; Completed 91 credits (11/2012 - 05/2016)

Coursework focused on philosophy and psychology
